

HOW SCALE AND SEARCH CAN REWRITE WHO LOOKS ORIGINAL

A source-linked look at platform memory, naming collisions, discoverability, and the gap between chronology and perceived prominence.

STORY ANGLE

PLATFORM SCALE CAN CHANGE WHICH PRODUCT HISTORY APPEARS PRIMARY ONLINE.

Search results are dynamic, personalized, and difficult to reconstruct. Dated captures can document a visibility problem, but they do not replace trademark evidence or establish actual consumer understanding.

QUICK READ

WHAT THE RECORD SHOWS

1. The dated record places Lucky Machines' public commercial presentation before Mattel's application filing.
2. Mattel's later program generated a broad official social, video, licensing, and retail footprint.
3. Current search prominence cannot by itself establish historical priority, access, confusion, or causation.

EVIDENCE BOUNDARY

The TTAB matter is pending. No final merits decision has issued.

Public records establish chronology and publication, not access, copying, intent, actual confusion, causation, damages, private approval routing, licensor knowledge, or the Board's future ruling. Attribute Lucky Machines' positions and first-person accounts. Seek Mattel's response independently.
